

ABSTRACT OF THE DISCLOSURE

[00140] A method and apparatus is disclosed herein for using rewritable sheets.

In one embodiment, the method comprises representing a first collection of media objects using a first sheet having a first identifier and a first graphical content representing the media objects, creating a second collection of media objects from the first collection of media objects, and re-marking the first sheet to include a second identifier and to have a second graphical content representing the second collection of media objects.
